Wood Floor Specification Sheet

European Oak | Rustic and Prime Grades

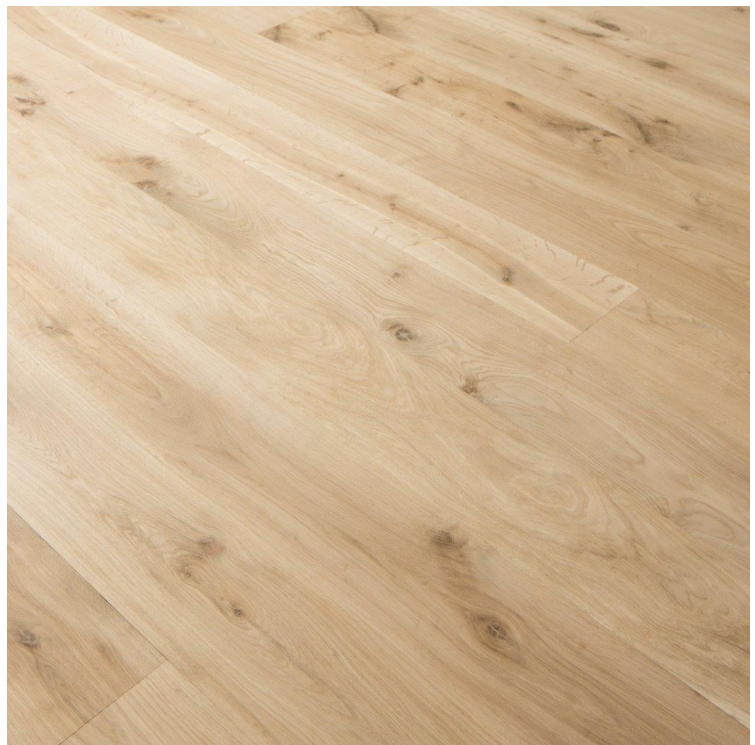

Quercus Robor is sourced from managed forests by our FSC certified mill in Europe. Logs are French Cut and the lamellas are graded to our custom specification. The sawn lamellas are bonded to an exterior grade baltic birch substrate, precision milled, filled as necessary, and sanded smooth.

Rustic Grade:

Our Rustic Grade highlights the natural features present in European Oak. We allow for a culled presence of knots, cracks and checks, while attempting to remove presence of any significant sap. The allowance of up to 50mm diameter knots, and open knots of up to 20mm create a flooring grade that is both natural and sophisticated. Open voids are filled with a dark brown epoxy and presanded.

Prime Grade:

Our Prime Grade highlights the tonal uniformity and clarity of an elevated grade of European oak. We allow for pin knots and small filled knots up to 15mm. Efforts are made to cull sap, but some edge or end sap may be present.
